

INSTRUCTIONS FOR APPLYING LASH CRYSTALS

You will need:

- ✗ Lash Crystals
- ✗ HP-A or HP-3 Adhesive
- ✗ Jade Stone
- ✗ A Microbrush
- ✗ Straight & Curved Tweezers
- ✗ Blower

Steps for applying lash crystals to lashes:

- ✗ Apply a full set of Xtreme Lashes™ first.
- ✗ Choose sizes and colors of Lash Crystals. Set out desired quantity.
- ✗ Apply one drop of Xtreme Lashes™ HP-A or HP-3 adhesive to a jade stone.
- ✗ Cut off brush end (tip) of a Microbrush and set aside.
- ✗ Using your curved isolating tweezers, isolate one lash.
- ✗ Continuing to isolate, dip the tip of the Microbrush into the adhesive to pick up a very small amount of adhesive.
- ✗ Continuing to isolate, use the tip of the Microbrush and dab a small amount of adhesive onto the place on the lashes where you will be attaching the crystal.
- ✗ Continuing to isolate, use your straight tweezers to pick up the lash crystal.
- ✗ Continuing to isolate, place the flat back of the crystal on the spot where you placed the adhesive.
- ✗ Continuing to isolate, use your blower to dry the crystal.
- ✗ Repeat for as many crystals as you desire.
