

# 5 STEPS TO SEXY EYES

## STEP 2

Choosing your color palette. This is the easy part, simply choose the colors that are going to make you feel your very best. I recommend always picking a light, medium and darker color of whatever color palette you are using. Example, I decided to go with the brown family so I chose a Light, medium and dark brown.

## STEP 1

It is always a good idea to use an eyeshadow base or concealer on the eyelid first. Doing this will ensure longer lasting eye makeup throughout the course of the day. This will also make the colors you are using look more vibrant.

## STEP 3

For this step you do not even need a brush. Simply use your finger of choice. I know, you probably think I'm crazy, but it works. Taking the darkest color of your color scheme apply the eyeshadow to the center of the eye lid working the color down to the lash line. Using the medium color, apply into the crease of the eyes. Last but not least use the lighter color and apply it to the inside corner of your eyes. You should start to notice how your eyes are beginning to pop.

## STEP 4

Use a brow high lighter. This is to be applied to the brow bone, directly underneath the eyebrow. Doing this will accentuate and define those beautiful eyes.

## STEP 5

Using an eyelash curler is a must. Your may think that it could harm your lashes but have no fear, the Xtreme Lashes heated eyelash curler will curl those lashes with ease. Follow it up with the

Xtreme Lashes lengthening and thickening mascara and you will add the finishing touches to your sexy sultry eyes! Xtreme Lashes products can be found at LadyLash Studios, Delray Beach and [xtremeLashes.com](http://xtremeLashes.com)
