XTREME EYELASHES - Extend Your Beauty!

During the **Cannes Film Festival**, Xtreme Lashes presented their unique beauty invention in the *Celebrity Gift Lounge* at **Nikki Beach**. I had an appointment 10 am for an Xtreme Eyelashes treatment. **Top Model Alessandra Aiores** (who also won **Miss Germany 2003**) got her treatment before me. (I took a picture of it, as seen down below) After sleeping just 4 hours, for the 10th night in a row, I couldn't help to fall a sleep, during the treatment, which took less then 2 hours. I woke up, feeling like a princess!

Imagine long, thick, luscious and beautiful eyelashes without the hassle of applying and removing mascara. It's definitely possible with Xtreme Lashes®. They are also available in various lengths and colours. This treatment is not your traditional fake eyelash strips- they are semi-permanent individual eyelash extensions! Natural eyelashes are attached to your own eyelashes and the result is natural long beautiful eyelashes which will seduce any man!

Wearing no make up, I was later that same day checked out by a man in the grocery store, who just had to tell me how beautiful I looked, so that must be enough proof! I have today had them for 1.5 week and they still look amazing! I have been jogging along the beach and slept without any problems!

Xtreme Eyelashes are not yet in Sweden. So, If you know of a clinic, that would be suitable for performing this exclusive treatment: Contact me!
