

SUMMERTIME

Less is More

Perfect brows, perfect lashes and perfect lips are the three must haves for summertime beauty.

Summertime is here, so throw all your makeup in the drawer because LESS IS MORE! Perfect brows, perfect lashes and perfect lips are the three must haves for summertime beauty.

First, have your brows professionally sculpted. Doing this will give shape and definition to your eyes and ensure a beautifully framed face. Maintaining your brows so important it should be done once every two to three weeks.

Extreme Eyelash extensions are another summer must have! "Eyelash extensions are a wonderful way to give your eye an instant non-surgical lift!" says **Mikaela Fernandez**, eyelash extension guru (over 1000 sets applied) of **The Lash Studio** in Delray Beach. Frankly, I haven't met a woman who doesn't want to wake up with beautiful lashes! The pain free, super relaxing process takes about 1 1/2 hours, and can last indefinitely if maintained properly.

"By coming every 2 to 3 weeks for a quick touchup your lashes remain full, beautiful and natural looking," Mikaela said.

"Many of my client's husbands, boyfriends and partners don't know these lashes aren't their own! They just notice something is different and perhaps glowing." How fun! Ladies, you can still keep yourself a mystery!

When considering eyelash extensions, you don't want to skimp on the price, this often ensures low quality. After all, you only have one set of eyes! The initial cost of a full set lashes (60+ per eye) with Master Stylist and lash addict herself, Mikaela Fernandez starts at \$400.00 and is well worth every penny.

The Lash Studio does not use the clumps or cluster lashes which can cause damage to your natural lashes rather, synthetic weightless strands are attached one at a time to each of your own natural lashes. The result is stunning, completely

undetectable lash extensions you can call your own! Subtle highlighting with color, in lieu of eyeshadow for the summer months, and year round, is also available.

So, the next time you are in line at the grocery store, on the golf course, perhaps at the gym or beach this summer, take a second peek at the set of lashes next to you, they just might be extended.....but I'll never tell!

Now that you have your brows sculpted like a movie star and your lashes plumped up its on to your lips. The summer sun can do damage to those lips if they are not properly protected. I suggest **M.A.C. tinted lipbalms** with SPF 15. "These balms are light, not greasy and have the perfect pinch of summertime color paired up with a protecting sunscreen." says **Elisa Novak**, makeup artist/product specialist of **M.A.C Cosmetics** at the **Boca Town Center Mall**. Follow this up with the **L'oreal** infallible never fall lipcolour and you have yourself the sexiest summer lips in town.

So, this summer relax, have fun and most importantly look absolutely flawless doing it. Go ahead, Stay Fabulous! ■
