

Take your lashes to the Xtreme

Kori Ellis

The holiday season is almost upon us. Look your best and your most glamorous by getting semi-permanent eyelash extensions. Everyone knows about hair extensions, but many women aren't familiar with eyelash extensions. They are terrific for the holidays or anytime you want to add a little glamour and drama to your eyes.

Xtreme Lashes offers extensions that extend your lashes, making your eyes look big and beautiful. These lash extensions can only be put on by professionals.

Celebrity hairstylist and Xtreme Lash stylist, [Billy Lowe](#) offers this service in his private hair studio near the heart of Beverly Hills.

"They are an instant eye-lift" says Lowe. "It's amazing how the eyes just pop once the procedure is complete. It gives the illusion of a brighter more beautiful, well dressed eye."

The lashes come in over 150 colors, lengths and thicknesses. They can be contoured for a special holiday party to match a theme or your attire.

They can even add little Swarovski Lash Crystals for an amazing glitzy look - [click here to see a close up](#) of the crystals.
