Define your eyes, make a statement

Glideliner™ are the worlds first eye pencils specially formulated for eyelash extensions. They feature a silky smooth, long lasting eye color in one easy stroke. Best known for their innovative semi-permanent eyelash extensions, Xtreme eyelash extensions introduce five colorful new eyeliners to define your eyes and make them pop.

These eyeliners feature a revolutionary gel technology, which prevent deterioration of the bond where the natural lash and the extensions meet. What this means is NO build-up, NO flaking and NO melting into the bond - so the color stays put.

Offering the best of both worlds, Glideliner™ provides the definition of a liquid liner with the smoky look of a pencil. Delivering a high intensity, true color pigment and a non-smear, long lasting, waterproof formula eliminates the need to re-apply throughout the day. While designed to work with eyelash extensions, Glideliner™ can also be used by women with natural lashes to help enhance their eyes. **"These Glideliners are my latest addiction...I can't lash without them!!" says National Lash Artist & Xtreme Lashes Master Stylist Mikaela Fernandez of www.ladylash.com**

Eye makeup played a huge role on the catwalks during Spring 2009. Dramatic Lashes gave the appearance of cat eyes, highlighters along the corner of the inner eyes defined features, while brown shadows added just enough colors to enhance the eyes, while keeping them looking natural. Wishful Thinking Eye Shine allows you to achieve all the new season beauty trends in one product. A 4-in-1, it can be used as an eye shadow, eye liner, highlighter and blush. Add to the lids for an instant twinkle or blend on to cheeks and brow bones to achieve a glistening glow. This product contains soothing Calendula and Chamomile extracts to cool and calm the eye area and was designed to be removed easily. Not only will it compliment your eyelash extensions, but also adds depth, sparkle and a touch of glamour.

These new and exciting products can all be found at LadyLash Studios™
