

## 23 Nov 2009 - Xtreme Lashes Review (From Lashes to Makeup)

Hi my beauty addicts...

I reviewed some products I received from Xtreme Lashes and they are totally worth your \$\$\$\$. They have everything from lash applications to cosmetics. They have great mascaras that leave your lashes looking beautiful yet classy and natural. Their eye liners are so soft to go on, that they simply glide onto your waterline. They have great color pay off and they truly last a whole day of activity, without smearing or smudging. I totally recommend them, They have quality and affordable prices. Their mascara is compared to Lancome's L'extreme mascara only giving you a more subtle natural look. I absolutely recommend that you check their website out [www.xtremelashes.com](http://www.xtremelashes.com)

Please check out my detailed video review on each product I have tried, check it out below and don't forget to drop by their website and click on their cosmetics section, trust me you wont be disappointed.
