## SPRAY TAN

“I want muscle definition.”

We've all heard of airbrush tans, but a spray-on treatment that makes you look slimmer? Completely Bare's Sculpted Tan uses precise shading and contouring to create the illusion of a more whittled waist—and even six-pack abs if you want them. Best of all, you just have to stand there for 15 minutes while you're sprayed, and 5 minutes to dry, and then you're ready to hit the beach or pool with confidence. Completely Bare Sculpted Tan \$75, visit [completelybare.com](http://completelybare.com) for locations

AFTER

BEFORE

“I couldn't believe how a simple 15-minute spray tan could instantly make my stomach look so slim and toned. And best of all, the results lasted for more than a week.”

## EYELASH EXTENSION

“I want longer lashes.”

Eyelash extensions offer longer, lusher lashes for up to two months. Over about two hours, individual synthetic lashes are applied to your natural lashes, and the length selected is based on your starting length. You may be advised not to wear makeup for 24 hours after application, and you shouldn't apply mascara to the extensions as long as you have them (you won't need to anyway). 40 Xtreme Lashes applied to each eye. Service performed at Spa 11, Delray Beach, FL. About \$400, visit [xtremelashes.com](http://xtremelashes.com) for locations
