

Lash Out With Eyelash Extensions at Salon Thalia

August 24, 5:29 PM = Center City Style Examiner = Michelle Conron

Long eyelashes are the new black. Enter Xtreme Lashes Lash Extensions; expertly applied by certified Xtreme Lash technician Memories at Salon Thalia.

After an initial consult (ten minutes tops) Memories will conclude if you are a candidate for the procedure, then help you decide on if you want to do the natural or xtreme length. I'm a lover of the xtreme length, I had perfectly flirty lashes for a good four weeks before they started to grow out too much for my liking and I removed them. I found myself leaving the house forgetting mascara most days (gasp) and barely noticing a difference.

Salon Thalia is a beautifully decorated sanctuary with all the essentials to help you go from drab to fab. Check out their website at www.salonthalia.com or call for an appointment (215) 625-0900. For more info on Xtreme Lashes go to www.xtremelashes.com

Quick Tips:

- You cannot wet your lashes for 24 hours after application
- No oil based make-up removers EVER
- Use the conditioner they give you daily, it helps reinforce the glue bonds
- Use the mascara they give you, and only put it on the tips
- Try not curl your lashes...you can crack the glue by doing so
